irinjalakuda,thrissur

Completed B.Tech in Computer Science and Engineering from Christ College of Engineering, Irinjalakuda in 2025.

## WORK EXPERIENCE

### Inmakes Learning Hub – May 2025 – Present

#### Python Full Stack Development Intern

Currently undergoing training in Python backend development, frontend frameworks, and full stack integration. Involved in hands-on projects and agile team collaboration.

### RED TEAM HACKER ACADEMY

#### Cyber security intern

AUGUST 2024

- Completed a three-week internship at Red Team Hacker Academy, studying basic cybersecurity tools and their real-life applications, with a focus on penetration testing to identify and address security vulnerabilities.

---

## PROJECTS, ENGAGEMENTS & RECOGNITION

### Project Work:

- Final Year Project: Budget Management and Forecasting System  
Developed a system to help organizations manage finances by analyzing past income and expenditure data using random forest and XGBoost models. The system provides budget predictions with 72% forecasting accuracy.
- Mini Project: Automated Exam Seating Arrangement  
Designed and implemented a system to auto-assign student seating during exams to reduce malpractice and improve administrative efficiency.

**Awards:**won a civilians trophy.

**Volunteer Work:** I volunteered as an ncc candidate for 3 years.

---
